401.04 Visibility at Intersections: On a corner lot in any district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impede the vision of motor vehicle operators between a height of two and one half (2 2) and ten (10) feet above the center line grades of the intersecting streets and within a triangular area bounded by the right of way lines for a distance of twenty five (25) feet from the intersection and a straight line connecting said points twenty five (25) feet back from the intersection of said right of way lines.

401.05 Accessory Buildings or Uses: No accessory building or use shall be placed within the required front yard or side yard of any main building or use in any district. Accessory buildings shall not cover more than ten percent (10 %) of the rear yard. No accessory building shall exceed a height of twenty (20) feet.

401.06 Railroad Setbacks: In all residential zoning districts a buffer strip of at least one hundred (100) feet in depth in addition to the normal setback required in the district shall be provided adjacent to the railroad right of way. This strip shall be part of the platted lots in a residential subdivision (or apartment/ condominium complex lot) and the following wording shall be shown on the plat or site plan: “This strip is reserved for screening. The placement of structures hereon is prohibited.”

401.07 Exceptions to Height Regulations: The height regulations contained in the District Regulations of this Ordinance do not apply to spires, belfries, cupolas, antennas, water tanks, ventilation chimneys, masts, towers, or other appurtenances usually required to be placed above the roof level and not intended for human occupancy.

SECTION 402 PUBLIC/ QUASI PUBLIC FACILITIES AND UTILITIES

All public and quasi-public facilities and utilities, as defined under Article II of this Ordinance, may be located in any district in the City, provided:

- A. That all applicable requirements of federal, state and county or city laws shall be met.
- B. That all such proposed uses shall be subject to the procedures stated under Section 2505 relative to Conditional Uses (Special Exceptions).
- C. No public or quasi-public facility or utility shall be located in a residential district or other district where such use would adversely affect the surrounding area.

Developers of churches, schools, hospitals, civic organizational buildings, country clubs, and other public/ quasi-public facilities or utilities in any district shall comply with the following dimensional requirements:

403.01 Maximum Building Height: 35 feet, unless greater height is specifically approved by the Mayor and Board of Aldermen based upon the required site plan review.

403.02 Minimum Lot Area: Minimum lot areas for all public/quasi-public uses shall be based upon the proposed use, subject to approval of a site plan submitted in accordance with Sections 2507 through 2510 of this Ordinance.

403.03 Minimum Lot Width: Established based upon proposed use.

403.04 Minimum Yards: Minimum yards for public/quasi-public structures shall be the same as for all other structures in individual zoning classifications.

SECTION 404 – REQUIRED LANDSCAPING ALONG ALL ARTERIAL STREETS IN ALL ZONING DISTRICTS

404.01 Arterial Street Landscaping for Subdivisions: Developers of all residential, commercial or industrial subdivisions shall provide a landscaped easement at least ten (10) feet in width consisting of grass, shrubs and trees along all existing or proposed streets or highways designated as Principal Arterial or Minor Arterial on the adopted Thoroughfares Plan of the City of Magee. The spacing, sizes and specific types of landscaping material to be installed within this landscaped easement shall be shown on the preliminary plat for all proposed subdivisions. Subdividers shall refer to the standards adopted by the City of Magee regarding such required landscaping along arterial streets. A preliminary plat shall not be approved unless the developer's proposals for the landscaped strip are acceptable to the Planning/Zoning Commission. This requirement is intended to ensure consistent treatment along the traffic frontage, which is essential for appearance and permanency.

At the time the final subdivision plat is submitted for any subdivision, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the assumption of liability insurance, taxes and maintenance of the required landscaped easement shall rest with the developer, if he retains ownership of such areas, or with a homeowners association if ownership of such landscaped areas is transferred to a homeowners association.

No fence shall be erected in a manner which blocks access to this required landscaped easement.

404.02 Arterial Street Landscaping for Developments Not Involving the Subdivision of Land: Developers of all multiple family residential (apartments or condominiums), manufactured home parks, commercial, industrial or public/quasi-public uses not involving the subdivision of land shall provide a landscaped strip at least ten (10) feet in width consisting of grass, shrubs and trees along all existing or proposed streets or highways designated as Principal Arterial or Minor Arterial on the adopted Thoroughfares Plan of the City of Magee. The spacing, sizes and specific types of landscaping material to be installed within this landscaped easement shall be shown on the required site plan. Developers shall refer to the standards adopted by the City of Magee regarding such required landscaping along arterial streets. A site plan shall not be approved unless the developer's proposals for the landscaped strip are acceptable to the Mayor and Board of Aldermen. This requirement is intended to insure consistent treatment along the traffic frontage, which is essential for appearance and permanency. Maintenance of this required landscaped strip shall be the responsibility of the property owners and not the City of Magee. Failure to maintain the landscaping in a satisfactory manner shall constitute a violation of this Ordinance and be subject to the penalties imposed herein.

No fence shall be erected in a manner which blocks access to this required landscaped easement.

SECTION 405 – BUFFER YARDS/SCREENING STANDARDS

405.01 Purpose and Intent: the purpose and intent of the Buffer/Screening Standards is to maintain many of the environmental features and amenities of the City for present and future generations. Adherence to these regulations will improve the appearance and compatibility of land uses and other development within the City through the installation and maintenance of plantings and fencing for screening and aesthetic effects, thereby serving to protect and preserve the appearance, character, value and safety of the total urban area and nearby properties. Attractive, well maintained buffer yards improve the quality of developing neighboring property owners that the adjacent project will remain relatively unobtrusive. It is intended that these provisions shall constitute minimum requirements.

405.02 Purpose of Buffer Yards and Screens: The purpose of a buffer yard is to provide a space or distance between two (2) incompatible uses. The purpose of screening is to provide an effective visual barrier between an unsightly or distracting activity and adjacent properties or public ways to preserve property values and assure compatibility of uses. It is also the purpose of these provisions to prescribe standards for development and maintenance of planning, fences, and walls, for conservation and protection of property through provision of barriers against traffic, trespass, noise, heat, glare, and dust, and through improvement of the appearance of individual properties, neighborhoods, and the City. These standards shall apply to all landscaping and screening required by other provisions of the zoning regulations.

405.03 General Standards: Buffer yards and screens require Site Plan Review. Such required site plan shall set forth yards and open spaces, screening walls, or fences and other development and protective requirements considered necessary to create a reasonable transition to and protection of the adjacent property. When the developer needs to ask for a variance from these Buffer Yard Regulations, an alternative Design Plan which shall fulfill the intent of this Ordinance must be submitted to the Planning/Zoning Commission, which will, upon review, make a recommendation regarding the submission. Reference: Site Plan Review, Sections 2507 - 2510. Variances shall not be granted, which are less than the next lowest minimum standard, and only then if the size of the lot is such that a full buffer is not possible. The site plan should show plant succession, drainage patterns, and landscape design in order to determine if the trees/vegetation grow well in this region, and also if they make good visual screens.

405.04 Buffer Yard Standards Relating to Abutting Properties: In the table below, when a district abuts a use indicated, a buffer yard and screen shall be provided by the developing use applying for a building permit as listed in Table I:

TABLE I: BUFFER YARD AND SCREEN

Use District	Abutting Use District	Minimum in Feet	
		Width	Screen Height
R-1	A-1, RE	10	6

I-2	All Districts except I-1	30	6
S-1	All Agricultural & Residential Districts	20	6

405.05 Screening Relative to Abutting Properties: In the table above, when a district abuts a use indicated, screening shall be provided as listed. Screening/fencing may consist of architectural and/or vegetative materials as follows:

- A. Architectural Screening: A screen/fence of wood, masonry, stone, concrete or metal may be placed along the property line or along the inner perimeter of the buffer yard so as to provide visual screening at minimum height requirements, at the time of issuance of the Certificate of Occupancy.
- B. Vegetative Screening: Trees and other vegetation as needed, shall be planted so as to provide year round visual screening at heights required by Table I. If screening is exclusively vegetation, minimum height requirements shall be met at the time of issuance of the Certificate of Zoning compliance. Earthen berms are considered a part of vegetative screening.
- C. Combination of materials: Whenever two or more alternative types of landscaping, fences, or walls are prescribed, they may be provided singly or in any combination.

405.06 Installation and Maintenance: All buffer yards and screening shall be installed in a sound workman like manner and according to accepted good planting procedures with the quality of plant material as herein described. All screening elements of buffer yards shall be installed so as to meet all other applicable ordinances and code requirements. Buffer yards shall

require protection from encroachment. (Encroachment is defined as any protrusion of a vehicle outside of a parking space, display area or access way into a buffer yard.) The owner shall be responsible for the maintenance of all buffer yards which shall be maintained in good condition so as to present a clean and orderly appearance.

In the event that plants are destroyed or die of natural causes, such materials shall be replaced within six (6) months. Failure of the owner of the property to maintain the buffer yard in good condition, as set forth above, shall subject him to the penalties as set forth in this Ordinance.

No buffer yard shall be abandoned, paved or otherwise employed for purposes other than screening.

405.07 Visibility at Intersections: See Section 401.04

405.08 Intersection of Driveway and Public ROW and/or Private Street: In any district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as to materially impair or block vision between a height of two and one half (2.5) and ten (10) feet above the center line grades of any interesting street/driveways in the area bounded by the street lines/driveway lines of such corner and a line joining points along said street lines fifteen (15) feet from the point of intersection.

405.09 Credit for Existing Plant Material: If the owner can demonstrate that healthy plant material exists on a site prior to its development for the purposes of buffer yard, the application of the above landscape standards may be adjusted by the Planning/Zoning Commission to allow credit for such plant material if such an adjustment is in keeping with and will preserve the intent of this Ordinance.

405.10 Planned District Standards: Fences, walls or vegetative screening shall be provided at the perimeter of planned developments where necessary to screen improvements, glare, uses or other influences having an adverse impact either on the planned development or on adjacent property. Such screening shall be of sufficient height as determined by the topography to improve the impact of such adverse elements on the first floor of any use located either within or adjacent to the planned development.

405.11 Zone Screening Standards: A screen (wall, fence, or landscaping) not less than six (6) feet or more than eight (8) feet in height shall be erected between commercially zoned property and abutting residentially zoned property at the time that any building or structure is erected on the commercial property. The height of the screening shall be the vertical distance measured from the top of the screen to the lowest point to grade within three (3) feet of such screen on the commercially zoned property. The screening shall be constructed on or immediately adjacent to the line dividing the residential and commercial properties. A new screen shall not be required where there is an existing screen, which substantially conforms to this section on

the abutting residential property. If the existing screen on abutting residential property is the only screen that conforms to this section, and if is removed, a new screen shall be required.

405.12 Fencing and Landscape Standards: The screen required herein shall consist of a solid fence or wall at least fifty percent (50%) opaque and not less than six (6) nor more than eight (8) feet in height, but shall not extend within fifteen (15) feet of any street or driveway opening onto a street. The screening shall be placed along the property lines or in case of screening along a street, fifteen (15) feet from the street ROW with landscaping (trees, shrubs, grass, and other planting) between the screening and the pavement. A louvered fence shall be considered solid if it blocks direct vision. Planting of a type approved by the Site Plan Review Committee may also be required in addition to, or in lieu of, fencing. Existing screening which complies with minimum standards may be used to meet the requirements of this Ordinance.

405.13 Exceptions to Screen Requirements: The landscaping and screening requirements set forth in other provisions of the zoning regulations shall be subject to the following exceptions:

- A. Equivalent Screening of Abutting Lot. Prescribed fences, walls, or dense landscaping need not be provided along a lot line if a building, fence, wall or dense landscaping of at least equivalent height, opacity, and maintenance exists immediately abutting and on the opposite side of said lot line.
- B. Height Within Required Minimum Yard. Required fences, walls, or dense landscaping need not be higher than 3 and 2 feet in that portion of any required minimum yard which lies within ten (10) feet of any street line.
- C. Lot Too Small to Accommodate a Full Buffer. Property owner may be allowed to substitute a berm or landscaped wall for all or part of the transitional yard requirements. The solid fence or wall should be constructed of materials that are compatible with the principal building.

405.14 Maintenance of Screens: All required planting shall be permanently maintained in good growing condition and, whenever necessary, replaced with new plant materials to ensure continued compliance with applicable landscaping requirements. All required fences and walls shall be permanently maintained in good condition and, whenever necessary, repaired or replaced.

In the event that the owner fails to maintain a buffer yard or planting strip as required, the City shall have the right to go onto said property, maintain said buffer yard or planting strip and assess the property owner in the same manner as for taxes. Before such work by the City the owner shall be given notice of the offending condition and a reasonable opportunity to repair it and is entitled to a due process hearing concerning the same.

405.15 Permits: Whenever a buffer yard or planting strip is required, it shall be completed prior to issuance of any certificate of occupancy and shall thereafter be maintained with permanent plant materials to provide a screen to abutting properties. They will reduce the possibility of traffic hazards as much as possible. Parking facilities must be designed to require vehicles leaving parking stalls to maneuver on the site to exit onto streets head first.

405.16 Design Standards for Screens, Buffers, Berms, and Walls: The purpose of these standards is to screen parking areas from view, to improve the appearance of parking areas near streets, to break the views of large expanses of pavement, to enhance property values and protect investments, to reduce erosion and storm water run off problems, to provide shade, to reduce glare, to encourage the saving of large trees and to reduce fumes and dust.

- A. Screens and buffers are not required along abutting bridge embankments, railroad tracks, slopes and retaining walls and where permanent landscaping is already provided.
- B. Masonry walls, sight proof fencing, or dense landscaping are required between commercial parking lots in side and rear yards abutting parcels that are residentially zoned or contain dwellings. These walls or fencing must be at least six feet high and may be combined with landscaping.
- C. Landscaped buffer strips are required between streets and parking lots or other driving surfaces except those serving single family and duplex dwellings. Interior parking islands are encouraged to be planted with trees and other shrubbery. If earthen berms are used, the berms must be used in conjunction with vegetation. Commercial establishments over one story tall must combine architectural screening with vegetative/ landscaping screening.

405.17 Fences Other Than Required Buffers:

- A. All privately owned fences, walls, and hedges must be on the property owned by the owner of the subject fence and not be in any right-of-way.
- B. Maximum heights for fences, walls, and hedges must not conflict with Section 405 of Ordinance #231, the Zoning Ordinance.
- C. Gates must not be designed to swing across property lines or to swing into any right-of-way.
- D. Party walls are governed by state law MS Code § 89-15-3 (2023).
- E. Fencing and wall material must imitate or be actual brick, wood, wrought iron, chain link, metal, or like material. Fence types include stockade, split rail, picket, wrought iron, decorative bollard, and chain link, and are typically constructed of wood, vinyl, and veneered metal. Walls are normally solid-opaque structures built of stone or masonry.

Materials and finishes should be durable and easily maintained, and fencing and walls shall be compatible with the design of the principal building. See the chart below for acceptable placement of fence types and materials:

<u>Use District</u>	<u>Fence Height</u>	<u>Fence Type</u>	<u>Fence Material</u>	<u>Location Allowed</u>

In calculating this open space requirement, the front, side and rear yards may be included. Parking lots and driveways, however, may not be included in calculating this required open space. The required site plan (see Section 805) shall indicate the location and area (in acres) to be so reserved or dedicated for open space or recreational facilities.

804.01 Maximum Amount of Common Open Space Covered by Water: No more than fifty percent (50%) of the required amount of open space may be covered by lakes or ponds.

804.02 Steep Slopes: In reviewing the site plan for a proposed apartment or condominium development, the Planning/Zoning Commission shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope land. The Planning/Zoning Commission shall make a recommendation to the Mayor and Board as to whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

804.03 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Mayor and Board of Aldermen as part of the site plan review process. Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

804.04 Performance Bonds: Prior to the rental/ lease of any apartment or the sale of any condominium, the developer may be permitted, at the discretion of the Mayor and Board of Aldermen, to post with the City a performance bond of sufficient surety to insure the completion of all proposed open space improvements (where applicable). Such performance bonds must be issued by a company that is licensed and admitted to business in the State of Mississippi. The Director of Public Works and the City Engineer in conjunction with the developer shall determine the amount of the performance bond after reviewing the construction plans for all improvements.

SECTION 805 – SITE PLAN REQUIRED

The developer of any apartment or condominium complex shall submit a site plan to the Planning/Zoning Commission in accordance with Sections 2507 through 2510 of this Ordinance.

SECTION 806 – REQUIRED LANDSCAPING ALONG ARTERIAL STREETS

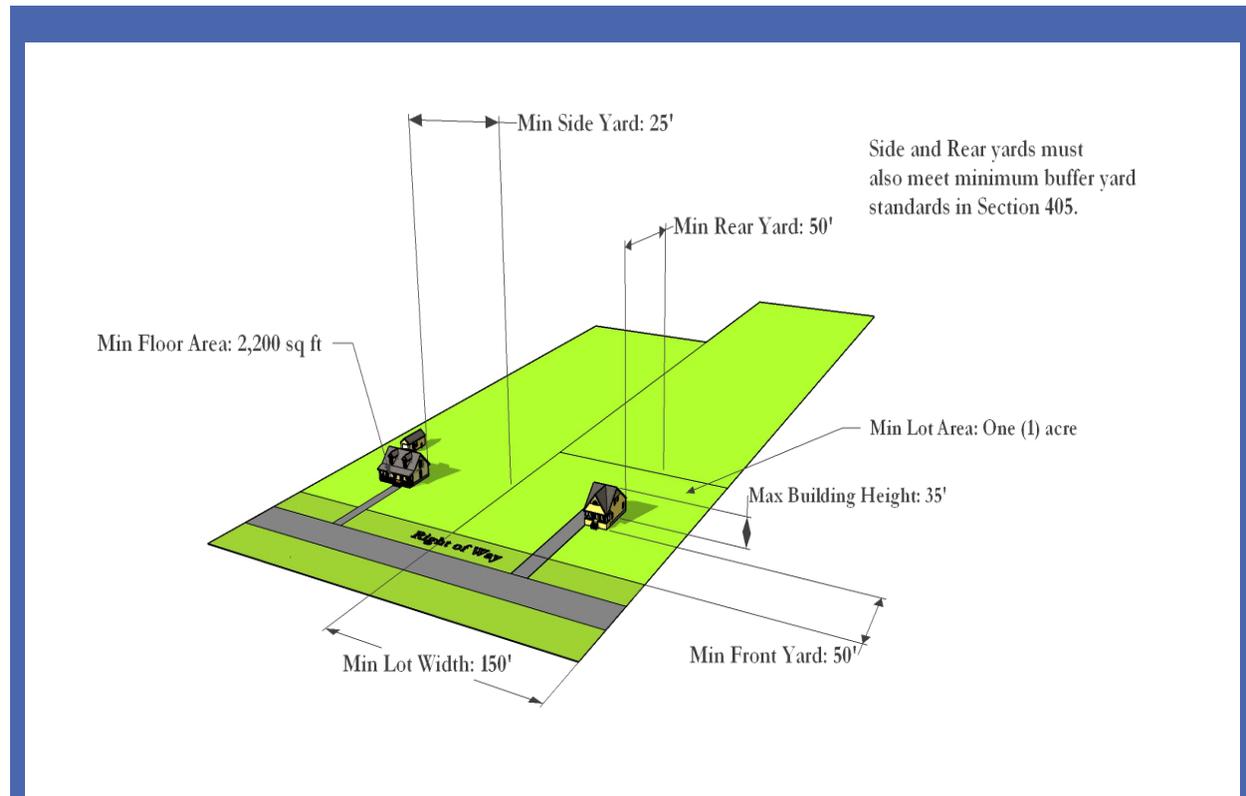

Developers of multiple family residential uses and other uses permitted in R-3 zones shall comply with Section 404 of this Ordinance regarding the provision of landscaping along arterial streets upon which the use abuts.

SECTION 807 – REQUIREMENTS FOR OFF STREET PARKING, LOADING AND ACCESS CONTROL

For reasons of fire safety all proposed apartment or condominium complexes shall provide at least two separate points of ingress/egress to/from the complex. Spacing requirements for these access points are provided under Article XXII. Developers of any proposed apartment or condominium complex or permitted special exception shall comply with parking and loading requirements included under Article XXII.

ARTICLE XI: PLANNED UNIT DEVELOPMENT DISTRICT (PUD)

SECTION 1100 – PURPOSE OF THIS DISTRICT

The purposes for establishing Planned Unit Development (PUD) districts are:

- A. To provide for the development of relatively large land areas as total cohesive and coordinated units, rather than development on a lot by lot basis.
- B. To permit more flexible and advantageous use of sites, especially with regard to natural features of the landscape, through the relaxation of conventional zoning requirements including minimum lot size and minimum lot width, while at the same time retaining approximately the same overall density as would ordinarily apply if the same areas were developed by conventional methods. (Note: However, minimum yard requirements are the same as for conventional districts.)
- C. To help reduce the cost of residential development by allowing more dwelling units per gross acre than could be built in a conventional low density subdivision (due to the extensive space requirements of streets rights of way, utility easements, etc., in a conventional subdivision) and by reducing the length of streets and utility extensions through concentration or clustering of housing.
- D. To provide for the development of sites in which land not used for structures and yards but not required by the basic zoning of the site shall be reserved collectively in contiguous units accessible to all dwellings within the PUD as open space; this open space will provide recreational opportunities for the residents of the PUD, and will also afford improved, safer pedestrian circulation within the PUD.

SECTION 1101 – PLANNED UNIT DEVELOPMENTS SHALL BE SUPERIMPOSED DISTRICTS

A Planned Unit Development shall be a superimposed designation on an existing low density residential district (either R-1 or R-2), thereby providing a broader latitude of design to achieve the purposes stated under Section 1100. As a superimposed designation, Planned Unit Developments shall be subject to the overall density requirements of the low density residential district over which they are superimposed. The maximum residential density shall be calculated as prescribed under Section 1106.02.

SECTION 1102 – PRELIMINARY SUBDIVISION PLAT APPROVAL REQUIRED PRIOR TO DESIGNATION OF PLANNED UNIT DEVELOPMENT ON OFFICIAL ZONING MAP

Any person desiring to subdivide land for purposes of creating a PUD shall first prepare and submit a sketch plat (or “Development Plan” if the PUD is proposed to contain uses other than single family detached residences) to the Director of Public Works in accordance with the Subdivision Regulations. All sketch plats for proposed PUD shall be reviewed by the Planning/Zoning Commission as well as the Director of Public Works and the City Engineer.

SECTION 1103 – REZONING REQUIRED FOR DEVELOPMENT OF PORTION OF PUD FOR MULTIPLE FAMILY RESIDENTIAL OR COMMERCIAL USES

If a person desires to reserve a portion of a proposed Planned Unit Development for multiple family residential uses (condominiums or apartments), and such areas are not zoned appropriately for such densities, he shall submit an application for rezoning in accordance with Section 2506 of this Ordinance indicating which areas he desires to be rezoned to R-2 or R-3.

Likewise, portions of a PUD may be reserved for commercial use by applying for the appropriate commercial zoning if the subject land is not zoned commercial on the Official Zoning Map.

If the subdivider wishes to reserve portions of the proposed PUD for moderate density or high density residential development or commercial use, such areas shall be shown on a sketch plat or Development Plan, which shall be submitted with an application for rezoning. A rezoning to permit such residential densities or commercial uses shall only be approved upon the condition that the preliminary plat and individual site plans (for the high density residential or commercial development) substantially conform to the sketch plat or development plan.

SECTION 1104 – LAND USES PERMITTED

- A. Single family detached dwellings with only one principal dwelling per lot.
- B. Accessory uses and structures as defined under Article II of this Ordinance.
- C. Horticultural uses not involving the sale of produce on the premises.
- D. Home occupations in compliance with Section 406 of this Ordinance.
- E. Private recreational or open space facilities, excluding country clubs and the like which shall be regulated as public/quasi-public facilities and utilities subject to the provisions of Section 402 of this Ordinance.

SECTION 1105 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2505

- A. Public or quasi-public facilities or utilities may be considered for location in a PUD district in compliance with Section 402 of this Ordinance.
- B. Child care facilities.

SECTION 1106 – DIMENSIONAL REQUIREMENTS

1106.01 Minimum Size of PUD: The minimum size of any PUD shall be five (5) acres.

1106.02 Maximum Residential Development Density: The basic control of residential development density shall be the density requirement of the particular conventional district (i.e., R-1 or R-2) over which the PUD is superimposed. The maximum density shall be calculated by dividing 43,560 square feet by the minimum lot size and then multiplying that quotient by the total gross acreage to be included in the PUD. Example: If a subdivider proposes to develop a 30-acre tract zoned “R-1” as a PUD, the basic control of density is that of the R-1 district: 43,560 square feet divided by 11,200 square feet (minimum lot size in R-1 districts), resulting in a quotient of 3.88 lots or dwelling units; 30 acres multiplied by 3.88 = 116 lots or single family detached dwelling units.

1106.03 Minimum Lot Size: No minimum.

1106.04 Minimum Lot Width: No minimum.

1106.05 Minimum Yards: The minimum yard requirements for single family detached dwellings in PUD districts shall be the same as those required in R-1 or R-2 districts.

1106.06 Maximum Height: 35 feet unless greater height is specifically approved by the Mayor and Board of Aldermen at the time the site plan is approved.

SECTION 1107 – DIMENSIONAL REQUIREMENTS FOR TOWNHOUSES, PATIO HOMES, MULTIPLE FAMILY RESIDENTIAL AND COMMERCIAL PORTIONS OF A PUD

If an application for rezoning is approved to allow portions of a PUD to be used for townhouses, patio homes, condominiums or apartments, or some commercial classification, the dimensional requirements of the appropriate district shall apply.

SECTION 1108 – REQUIRED LANDSCAPING ALONG ARTERIAL STREETS

See Section 404.01 of this Ordinance regarding the provision of landscaping along arterial streets upon which the Planned Unit Development abuts.

SECTION 1109 – COMMON OPEN SPACE REQUIREMENTS FOR PLANNED UNIT DEVELOPMENTS

Common open space shall be provided as a condition to the approval of a Planned Unit Development. Such common open space shall consist of land reserved exclusively for the recreational use of the PUD residents and owned and maintained by the residents through a Homeowner's Association (see Section 1109.07).

Common open space shall be integrated throughout the PUD, easily accessible to all the residents. The sketch plat or Development Plan shall indicate the location and area (in acres) to be so reserved for open space or recreational facilities.

1109.01 Minimum Percentage of Land Reserved as Common Open Space: Common open space shall comprise at least twenty five percent (25%) of the gross area (total acreage) of the PUD as shown on the required development plan. Public streets, parking lots (for example, a parking lot for a PUD recreational building), and utility easements shall not be considered in meeting the open space requirements of this Section.

1109.02 Maximum Amount of Common Open Space Covered By Water: No more than fifty percent (50%) of the required amount of open space may be covered by water (lakes, ponds, streams, etc.)

1109.03 Steep Slopes: In reviewing the preliminary subdivision plat for a proposed Planned Unit Development, the Planning/Zoning Commission shall determine if any land containing slopes of twelve percent (12%) or greater may be included in the required common open space. This determination shall be based upon the developer's specific proposed use of the steep slope land. The Planning Commission shall make a recommendation to the Mayor and Board as to whether or not any steep slope land should be approved for use in meeting the requirements of this Section.

1109.04 Physical Improvements: Common open space shall be suitably improved for the intended use, but open space containing natural features worthy of preservation may be left unimproved if such unimproved areas are approved by the Mayor and Board of Aldermen as part of the preliminary subdivision plat review process.

All open space improvements shall be shown on the sketch subdivision plat or Development Plan (approximate locations and dimensions and proposed use) and the preliminary and final plats (precise locations and dimensions and proposed use). Open space improvements may include pedestrian or bicycle trails, tennis courts, recreational buildings and swimming pools or similar facilities.

1109.05 Staged Development of a Planned Unit Development: If a Planned Unit Development is to be developed in stages or parts and the first part is to consist of the minimum of 5 acres, twenty five percent (25%) must be reserved for open space, or 1.25 acres. The open space requirements for subsequent parts or phases shall be calculated based upon the total open space requirement for the entire subdivision, including the initial phase or phases. Thus, if a developer proposes to ultimately develop 40 acres of land for a Planned Unit Development and the first phase will only contain 5 acres, the developer must reserve a total of at least 10 acres for the entire subdivision, which may include the 1.25 acres reserved for the first part.

1109.06 Performance Bond Required: Prior to the sale of any lot in a Planned Unit Development, the developer shall post with the City a performance bond of sufficient surety to insure the completion of all proposed open space improvements (where applicable). Such performance bonds must be issued by a company that is licensed and admitted to business in the State of Mississippi. The Director of Public Works and the City Engineer in conjunction with the developer shall determine the amount of the performance bond after reviewing the construction plans for all improvements.

1109.07 Maintenance/Liability in the Operation and Use of Common Open Space Areas Not Dedicated to the City of Magee: Authority granted by the City of Magee for the development of a PUD shall not be construed as, nor constitute, an obligation on the part of City of Magee either for maintenance or liability in the operation and use of common open space and recreational facilities located in the PUD.

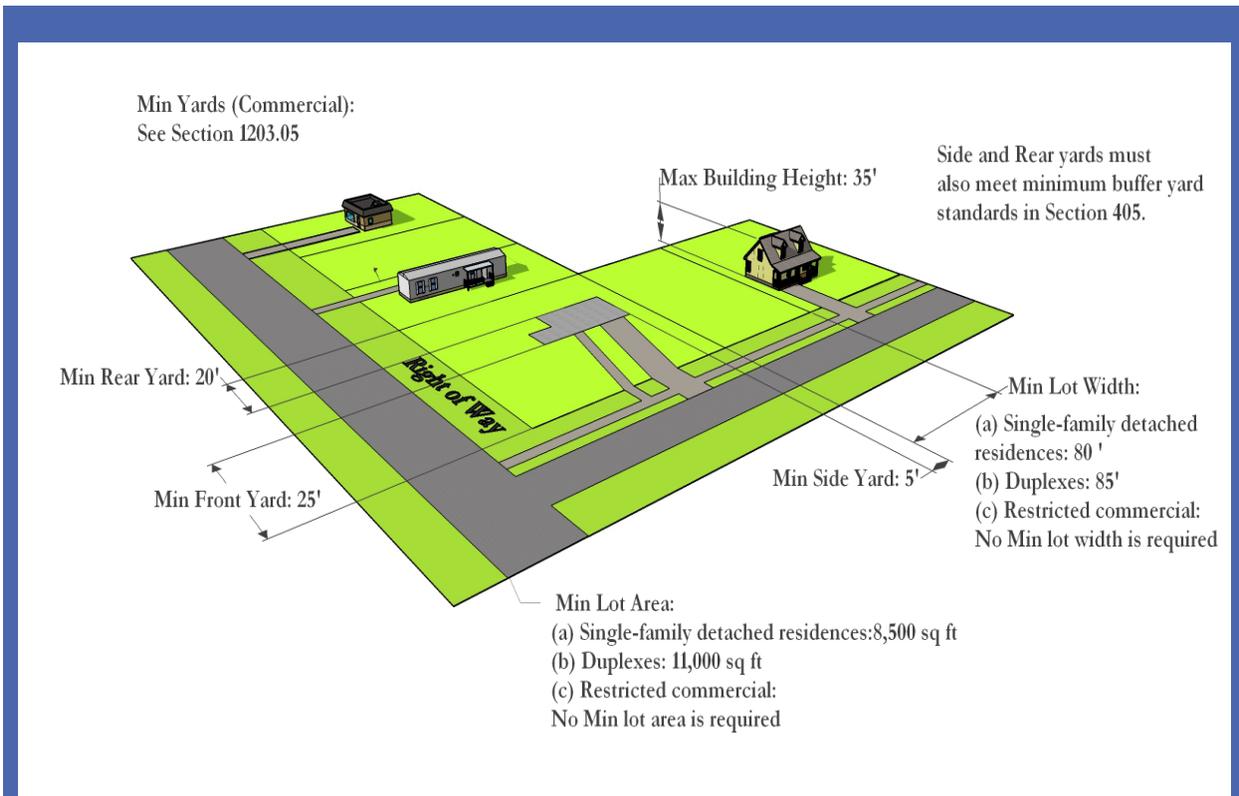

At the time the final subdivision plat is submitted for a PUD, the developer shall submit with his application for final plat approval a legal instrument or instruments which state that the assumption of liability insurance, taxes and maintenance of open space and other common facilities shall rest with the owners of the several lots or parcels of land located within the PUD. In order to insure the integrity of the open space so that it will remain genuinely open, the legal instrument(s) shall specify that the open space restrictions are permanent, not just for a period of years.

SECTION 1110 – REQUIREMENTS FOR OFF STREET PARKING, LOADING AND ACCESS CONTROL

See Article XXII regarding parking, loading and access control requirements.

ARTICLE XV: GENERAL COMMERCIAL DISTRICT (C-2)

SECTION 1500 – PURPOSE OF THIS DISTRICT

The purpose of this district is to promote the development of well-planned shopping centers and independent commercial uses within carefully selected areas of the City of Magee. The commercial activities permitted in this district include uses of a higher intensity than those first allowed in Restricted Commercial districts (C-1). Although shopping center uses permitted in this zone require access to an arterial street, such uses are not “highway oriented” like those first allowed in the Major Thoroughfares Commercial District (C-3). Uses first permitted in C-3 Major Thoroughfares Commercial districts and C-4 Adult Entertainment districts shall not be permitted in the C-2 district.

It is the intent of this Ordinance that shopping centers and independent commercial uses be developed so that pedestrian and vehicular circulation is coordinated with the circulation patterns of adjacent properties in the vicinity that are also affected. In order to facilitate access between adjoining properties and to reduce the number of curb cuts onto arterial streets, the installation of a service drive shall be considered in connection with any independent commercial use (i.e., a commercial use that is not a part of a shopping center) proposed in this district.

SECTION 1501 – LAND USES PERMITTED

- A. All uses allowed in C-1 Restricted Commercial district.
- B. Commercial uses in which services performed and merchandise offered for sale are conducted or displayed within enclosed structures, except for the display of small articles (i.e., those that can generally be hand carried by one or two persons) outside the commercial use.
- C. Shopping centers located on an existing or proposed arterial street as shown on the adopted Thoroughfares Plan; shopping centers may contain any of the uses permitted outright in C-2 zones.
- D. Hotels and motels.
- E. Restaurants, excluding drive in restaurants.
- F. Veterinary clinics and pet shops, excluding outside runs.
- G. Bowling alleys, skating rinks and similar recreational or entertainment enterprises conducted entirely within enclosed structures.

- H. Modular buildings that are built and designed for commercial uses that are otherwise allowed in this district.
- I. Medical cannabis dispensaries, subject to all applicable laws and rules administered by the Mississippi State Department of Health, the Mississippi Department of Revenue, and Section 407 of this Ordinance.
- J. Mobile food preparation vehicles in compliance with State laws and Section 408 of this Ordinance.

SECTION 1502 – CONDITIONAL USES AND STRUCTURES AS PROVIDED UNDER SECTION 2505

- A. Service stations including vehicle repairs (except body repairs), provided that all vehicle repairs except those of a minor nature (e.g., change of fan belt, minor carburetor adjustments, tire repairs) are conducted entirely within an enclosed building and provided that all such service stations are located on an arterial street designated as such by the adopted Thoroughfares Plan.
- B. Convenience or “drive in” grocery stores.
- C. Vehicle sales, rental or lease and vehicle service. Because the sale, rental or lease of vehicles involves outdoor activities, these uses may not be appropriate for all areas zoned C 2 General Commercial; these uses are permitted outright in C-3 Major Thoroughfares districts.
- D. Boat and marine sales, rental or lease, and boat/ marine service.
- E. Mortuaries or funeral homes, provided such uses shall be located on an existing or proposed arterial street as shown on the adopted Thoroughfares Plan.
- F. Horticultural nurseries shall be considered only as conditional uses in C-2 districts because much of the activity associated with these uses is conducted out of doors.
- G. Public or quasi-public facilities and utilities in compliance with Section 402 and other regulations of this Ordinance.
- H. Halfway houses.

SECTION 1503 – DIMENSIONAL REQUIREMENTS

1503.01 Maximum Building Height: 35 feet, unless greater height is approved by the Mayor and Board of Aldermen.

1503.02 Minimum Lot Area: No minimum lot width required.

1503.03 Minimum Lot Width: No minimum lot width required.

Furthermore, all yards must meet the buffer yard standards set forth in Section 405.
- C. Side yards and rear yards where abutting any agricultural or residential district: 20 feet, which shall meet all minimum buffer yard standards set forth in Section 405.

1503.05 Minimum Space between Separate (Detached) Buildings on the Same Lot: 30 feet. No more than two thirds (2/3%) of the space between such buildings shall be paved; the remaining area shall be landscaped in accordance with standards adopted by the City of Magee.

ARTICLE XIX: HEAVY INDUSTRIAL DISTRICT (I-2)

SECTION 1900 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the exclusive development of industrial uses that generally have extensive space requirements and/or in which all or part of the activities (other than temporary storage) associated with the use are conducted outdoors (outside of buildings). These activities often generate noise, odors, smoke or vibrations detectable to human senses off the premises on which the use is located.

It is the intent of this Ordinance that such “heavy” industrial districts be located insofar as possible adjacent only to C-3 Major Thoroughfares Commercial or I-1 Limited Industrial districts, which shall serve as transitional zones between I-2 districts and residential uses and lower intensity commercial uses. Heavy industrial uses shall be located only in areas directly accessible to streets, roads, or highways designated as principal or minor arterials on the adopted Thoroughfares Plan of the City of Magee or accessible to railroads.

See also Section 407.04 of this Ordinance with regard to prohibited uses.

SECTION 1901 – LAND USES PERMITTED

- A. Any use permitted in an I-1 district, subject to I-1 regulations.
- B. Heavy manufacturing uses which are not potentially hazardous or offensive to neighboring land uses due to the emission of dust, gas, smoke, noise, fumes, odors, vibrations, or other objectionable influences shall be permitted by right in I-2 districts, except that manufacturing uses of the “wet” type (i.e., those industries which require large amounts of water in processing or discharge large amounts of by products through the sewer system) shall be permitted only as a Conditional Use.
- C. High mast transmission and receiving towers.

SECTION 1902 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2505

- A. Any conditional use listed under I-1 district regulations, subject to I-1 regulations.
- B. Primary metal manufacturing, including: blast furnaces, steel works, and the rolling and finishing of ferrous metals; iron and steel foundries; primary smelting and refining of non-ferrous metals; and similar activities.
- C. Any manufacturing activity requiring large amounts of water for processing or discharging large amounts of waste or by products into the sewer system.
- D. Mining, quarrying and crude petroleum and natural gas production (including sand and gravel pits and rock crushing operations). When “open pit” mining operations are conducted, the operator must obtain required permits and approvals from other governmental entities and provide the City of Magee Board of Aldermen with written proof of same.
- E. Salvage yards and vehicle wrecking yards.
- F. Public and quasi-public facilities and utilities may be allowed in this district in compliance with Section 402 of this Ordinance and subject to any limitations and restrictions deemed necessary by the Mayor and Board of Aldermen.
- G. Any other use of a heavy industrial nature which is not prohibited under Section 407.04 of this Ordinance or otherwise prohibited by law may be allowed in I-2 districts, subject to any limitations and restrictions deemed necessary by the Mayor and Board of Aldermen.
- H. Railroad rights of way and related facilities.

- B. Side yards and rear yards where not abutting an agricultural or residential district: 20 feet; the first five (5) feet inside this side or rear yard setback (adjacent to the property line) shall be landscaped in accordance with the standards adopted by the City of Magee. Furthermore, all yards must meet the minimum buffer yard standards set forth in Section 405.
- C. Side yards and rear yards where abutting any residential district: 100 feet, which shall remain open and be landscaped in accordance with the standards adopted by the City of Magee. Furthermore, all yards must meet the minimum buffer yard standards set forth in Section 405.

ARTICLE XX: SPECIAL USE DISTRICT (S-1)

SECTION 2000 – PURPOSE OF THIS DISTRICT

The purpose of this district is to provide areas for the development of special uses, which, because of their size, institutional nature and/or unique characteristics, do not fit compatibly into other zoning districts of the City. Such uses commonly constitute “self-contained communities” with housing, dining/food service facilities, recreational uses, commercial type outlets, and parking lots provided primarily for the benefit of the staff, students, and residents of the institution on the grounds. The uses permitted in S-1 districts do not include public/quasi-public facilities and utilities as those are defined by this Ordinance.

SECTION 2001 – ZONING OF ALL PROPERTY OWNED BY INSTITUTIONAL USES PERMITTED IN THIS DISTRICT SHALL BE S-1 UNLESS REZONED

The zoning of all property owned by institutions permitted in this district, including educational institutions, comprehensive elderly retirement facilities, or large scale group care facilities shall be S-1 Special Use District unless the land owned by such institutions is rezoned by the Mayor and Board of Aldermen. Furthermore, if the operators of such institutions propose to acquire additional land following the effective date of this Ordinance, the operators of such institutions shall file an application for the appropriate zoning if not already zoned consistent with the proposed use. If the land to be acquired is to be used for the purposes specified in this article, then the land shall be zoned S-1 accordingly.

This provision is intended to alert the public as to the possible character of future development of land proposed for rezoning by the operators of such institutional uses: for example, a proposed rezoning from S-1 to a commercial classification.

SECTION 2002 – LAND USES PERMITTED

- A. Educational institutions, including large scale (with campuses generally encompassing 50 acres or more) colleges and universities, religious seminaries, and technical and vocational training facilities. Uses permitted in such S-1 districts include administrative buildings/offices; educational facilities such as classrooms, libraries, laboratories, and gymnasiums; stadiums, auditoriums and coliseums; student or faculty housing; dining or food service facilities; recreational facilities such as golf courses, tennis courts, swimming pools, and similar uses; chapels and places of worship; commercial type facilities such as bookstores, laundries, hair styling shops and similar enterprises primarily intended for the benefit of students and staff; parking lots intended primarily for staff and students of the institution; and other uses

commonly associated with educational institutions. Small scale educational uses (generally, with campuses encompassing less than 50 acres), including elementary schools and secondary schools, are not included as special uses under this article, but are regulated as public/quasi-public uses under Section 402.

- B. Comprehensive elderly retirement facilities, including only those facilities which shall provide for the use of their residents the following:
1. residential units of varying size (i.e., number of bedrooms, different square footage depending upon the needs of the individual residents);
 2. common dining facilities and some or all meals;
 3. housekeeping and linen service, available if desired by the residents;
 4. laundry services, available if desired by the residents;
 5. commercial facilities intended primarily for the benefit of staff and residents of the retirement facility, including such facilities as a beauty salon or barber shop, bookstores, and convenience type commercial uses on site;
 6. local transportation provided directly by the facility (i.e., not contracted through taxicabs, etc.) for outings for residents;
 7. recreational facilities intended primarily for the benefit of staff and residents, such as a library, meeting/game room, spa or swimming pool, etc.; and
 8. security features, such as emergency pull cords in each residential unit;
 9. on site health care services and/ or facilities; and
 10. dwelling units for resident managers;
 11. Hospitals which are not a part of a retirement facility are not included as special uses under this article, but are regulated as public/quasi-public uses under Section 402. Furthermore, retirement facilities do not include nursing homes as defined by this Ordinance; nursing homes are regulated as public/quasi-public uses under Section 402.
- C. Large scale group care facilities for the housing and care of orphans, foster children, battered women and children, “disabled” persons (see Article II for definition of “disabled”) and other persons requiring specialized treatment, including all uses needed for same.

SECTION 2003 – CONDITIONAL USES AND STRUCTURES AS PROVIDED IN SECTION 2505

Public and quasi-public facilities and utilities may be allowed on these districts in compliance with Section 402 of this Ordinance and subject to any limitations and restrictions deemed necessary by the Mayor and Board of Aldermen.

SECTION 2004 – DIMENSIONAL REQUIREMENTS

2004.01 Maximum Height: 35 feet unless greater height is specifically approved by the Mayor and Board of Aldermen at the time the site plan is approved.

2004.02 Minimum Lot Area: Two (2) acres.

2004.03 Minimum Lot Width: Not regulated.

2004.04 Maximum Buildable Area: Except for required minimum yards, off street parking and loading requirements, and required distances between buildings, permitted uses may occupy as much of the site in an S-1 district as is necessary to conduct the permitted activity.

2004.05 Minimum Space between Separate (Detached) Buildings on the Same Lot: 30 feet. No more than two thirds (2/3%) of the space between such buildings shall be paved; the remaining area shall be landscaped in accordance with the standards adopted by the City of Magee.

2004.06 Minimum Yards:

- A. Front yard: 50 feet from the front of any proposed building to the right of way of any public (i.e., dedicated) street or highway; or 20 feet from the front of any proposed building to the curb or pavement line of any existing or proposed private street (i.e., circulation driveway) on the property of the S 1 use.
- B. Side yards and rear yards where not abutting an agricultural, residential district or an existing single family detached residential use: 20 feet from any property line to any building; the first five (5) feet inside this side or rear yard setback (adjacent to the property landscaped in accordance with the standards adopted by the City of Magee. Furthermore, all yards must meet the buffer yard standards set forth in Section 405.
- C. Side yards and rear yards where abutting any agricultural, single family residential district or existing single family detached residential use: 20 feet from any property line to any building, which shall meet all minimum buffer yard standards set forth in Section 405.

SECTION 2005 – SITE PLAN REQUIRED

A site plan shall be submitted to the Planning/Zoning Commission in accordance with Sections 2507 through 2510 of this Ordinance.

ARTICLE XXII: OFF STREET PARKING, LOADING SPACE AND ACCESS REQUIREMENTS

SECTION 2200 – PURPOSE OF THIS ARTICLE

The purpose of this Article is to establish requirements regarding: (1) sufficient space for the off street parking and, where required, parking lot landscaping; (2) sufficient space for loading (or unloading) of all motor vehicles; and (3) design standards for accessways within the City of Magee. The purpose of these requirements is to reduce or avoid congestion of streets and to provide a more suitable living and working environment. Such space for parking or loading of motor vehicles, provisions for ingress and egress, and required landscaping shall be provided at the time of the erection of any principal structure, or at the time any principal structure is enlarged or increased in capacity by the addition of dwelling units, guest rooms, floor area, or seats. The responsibility for meeting the requirements established by this Ordinance shall be that of whoever establishes the use to which it is appurtenant.

SECTION 2201 – OFF STREET PARKING

2201.01 General Requirements: Off street parking and loading space shall be provided in accordance with the following regulations:

- A. Provision of Parking Space on the Same Lot with all Residential Uses: off-street parking space for all residential land uses shall be provided on the same parcel of land as the residential use to which the parking space is an accessory. Commercial vehicles are prohibited in zones R-1, R-2, R-3, RE, RM, DPD, and MX, including but not limited to the following: truck tractors, semitrailers, commercial trucks detached from trailers, commercial trailers detached from trucks, and other commercial vehicles with a carrying capacity exceeding 40,000 pounds. However, that, following site plan review by the Planning/Zoning Commission in accordance with Sections 2507 through 2510 of this Ordinance, the Mayor and Board of Aldermen may authorize in writing an alternative off site location to the required parking space for such non-residential land uses if:
 - 1. There are practical difficulties preventing the location of parking space on the same parcel; and/or

2. The public safety or the public convenience or both would be better served by the location of the required space on a parcel of land other than with the use to which it is appurtenant.
- C. Provision of Access and Maneuver Space for Non-Residential Land Uses: In calculating any required parking area, other than for parking spaces required for single and two family dwellings, sufficient access and maneuver space shall be provided to permit the parking and removal of any vehicle without moving other vehicles. Furthermore, all parking spaces shall be designed, maintained and regulated so that no parking or maneuvering incidental to parking shall be on any public street, sidewalk, or alley; and exiting will not require backing into a public street.

When computing parking space requirements on the basis of the number of persons expected to be on the premises of a particular land use, the maximum number of occupants, practitioners, patrons or employees anticipated to be on the premises at any one time shall be used. When the application of the requirements of this Section would result in a fractional space, any such fraction shall be counted as one space. In the case of mixed, compatible subcategories of land use (e.g., as shopping centers containing a grocery store, a furniture store, a motion picture theater, etc.), the parking space required by the schedule below shall equal the sum of the requirements for each of the various uses (subcategories) computed separately. Developers shall have the following options regarding the width of parking stalls:

- A. Parking stalls shall be marked by a four inch stripe hair pinned or looped line painted on the pavement, with a minimum of 12 18 inches between the looped lines. Parking stalls shall be a minimum of nine feet wide, measured center to center of the hair pinned lines; or
- B. Parking stalls shall be marked by a straight four inch stripe painted on the pavement. Parking stalls shall be a minimum of nine and one half feet wide, measured center to center of the straight line.

One loading space measuring at least 12 feet by 55 feet with a minimum height clearance of 14 feet for the first 3,000 square feet of building and/or storage area; PLUS one additional loading space with the same space requirements as above for each 10,000 square feet of building and/or storage area above the first 3,000 square feet. (Examples: (1) A parcel of land containing 3,000 square feet of area which is used for the storage of building supplies or a commercial building containing 3,000 square feet of floor space: one loading space would be required for either situation; (2) a parcel of land containing 23,000 square feet of outdoor storage area or a building containing 23,000 square feet of floor area: a minimum of three loading spaces would be required in either situation.)

SECTION 2203 – ACCESS WAYS

Developers of public/quasi-public uses, multiple family residential uses, all commercial uses and all industrial uses shall control access along arterial and collector streets upon which the use abuts in accordance with the following regulations:

2203.01 Access Barrier: Each lot, with its buildings, other structures and parking and loading areas shall be physically separated from each adjoining street by a curb or other suitable barrier against unchanneled motor vehicle ingress or egress. Except for the access ways permitted below, such barrier shall be continuous for the entire length of any lot line adjoining a street.

2203.02 Distances between Access Ways on the Same Lot, Minimum Setbacks from Street Intersections, and Driveway Width Regulations for Multiple Family Residential, Commercial, Industrial and Public/Quasi Public Uses: All access ways for multiple family residential, commercial, industrial, and public/quasi-public uses shall comply with Table 3. Where practicable, developers of adjoining lots for commercial, industrial, or public/quasi-public uses shall provide common access ways in order to reduce the number of points of ingress and

egress along collector and arterial streets. The provision of such common access ways with adjoining properties shall be considered in the preparation of the site plan required by these regulations. Site plans shall not be recommended for approval unless the Planning/Zoning Commission determines that the developer has made a reasonable effort to coordinate the provision of common access ways with adjoining property owners.

ARTICLE XXIII: NONCONFORMITIES

SECTION 2300 – PURPOSE OF THIS ARTICLE

A nonconformity is any land, lot, building, structure or parts thereof, existing prior to the enactment of this Ordinance, which subsequent to the enactment of this Ordinance or amendment thereto, does not conform with the use regulations and/or dimensional regulations of the district in which it is situated, and/or does not comply with any other requirements herein.

It is the intent of this Ordinance to permit nonconformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Ordinance that nonconformities shall not be enlarged upon, expanded, or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

Nonconforming Uses (see definition under Section 2301 below) are declared by this Ordinance to be incompatible with permitted land use in the districts involved. Therefore, a nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of structure and land in combination shall not be extended or enlarged after passage of this Ordinance by the addition of other uses of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this Ordinance shall be deemed to require a change of plans, construction, or designated use of any building on which actual construction was lawfully initiated prior to the effective date of adoption or amendment of this Ordinance and upon which actual building construction has been carried on diligently. “Actual construction” is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially initiated preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be “actual construction”, provided that work shall be carried on diligently.

SECTION 2301 – TYPES OF NONCONFORMITIES

Where the definition of a nonconformity has been given in Section 201 and under Section 2300, such nonconformities shall be further defined according to one of the types of nonconformities listed below, or combination thereof, for the purpose of regulation.

2301.01 Nonconforming Undeveloped “Lot of Record”: This type of nonconformity is an undeveloped “lot of record” (i.e., part of a subdivision, the map of which has been recorded in the office of the Chancery Clerk of Simpson County, Mississippi, or a lot described by metes and bounds, the description of which has been recorded in said office) the dimensions of which,

subsequent to the passage of this Ordinance, do not meet the area or width requirements, or both, of the district wherein such lot is located.

2301.02 Nonconforming Structure (Including Buildings): This type of nonconformity includes anything lawfully constructed or erected with a fixed location on the ground (or attached to something having a fixed location on the ground) prior to the passage of this Ordinance, but which subsequently does not comply with the bulk, placement or other dimensional requirements of the zoning district wherein located.

2301.03 Nonconforming Use: This type of nonconformity includes the uses of any land, lot, building, structure, or parts thereof, which lawfully existed prior to the passage of this Ordinance but which subsequently does not comply with all or some part of the use requirements of the zoning district wherein located.

SECTION 2302 – REGULATIONS CONCERNING NONCONFORMING UNDEVELOPED LOTS OF RECORD

2302.01 Erection of One Family Dwellings Allowed on Single Nonconforming Undeveloped (or Vacant) Lots of Record in Separate Ownerships: In any district in which one family dwellings are permitted, a one family dwelling and customary accessory buildings may be erected on any SINGLE nonconforming undeveloped (or vacant) lot of record after the effective date of this Ordinance, notwithstanding limitations imposed by other provisions of this Ordinance. Such lots must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such single lot of record fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that:

The required yard dimensions and other requirements (than those applying to lot area or width, or both) of the proposed single family residential use shall conform to the regulations in the district in which such single nonconforming lot of record is located.

Variance of yard requirements shall be obtained only through action of the Mayor and Board of Aldermen following recommendation of the Planning/Zoning Commission. (See Section 2504 of this Ordinance).

2302.02 Two or More Nonconforming Undeveloped (or Vacant) Lots of Record with Continuous Frontage Changing Ownership After the Effective Date of This Ordinance: If two or more undeveloped (or vacant) lots in single ownership with continuous frontage are “of record” at the time of enactment of this Ordinance, and if, subsequent to the passage of this Ordinance, such lots become nonconformities in the district where they are located; and if such lots change ownership after the enactment of this Ordinance, the lands involved shall be considered as undivided parcel for the purposes of this Ordinance; and no portion of said parcel shall be used

in a manner which diminishes compliance with the lot width and/or lot area requirements established by this Ordinance, nor shall any division of any parcel be made which creates a lot width or area (or both) below the requirements stated in this Ordinance.

The provisions of this subsection shall not apply to two or more undeveloped lots of record in single ownership with continuous frontage which remain in the same ownership (or if the lots are conveyed by inheritance or as a gift) following enactment of this Ordinance. Such lots not changing ownership shall continue to be considered divided parcels; and the owner of such lots may erect single family dwellings on each lot in districts where single family dwellings are permitted, subject to the regulations imposed by subsection 2302.01. However, further division of such nonconforming lots of record shall be prohibited.

No lot shall be created on or after the effective date of this Ordinance which does not meet the lot area and lot width requirements of the district wherein the lot is located.

SECTION 2303 – REGULATIONS CONCERNING NONCONFORMING STRUCTURES

Where a lawful structure exists before the effective date of adoption or amendment of this Ordinance that could not subsequently be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, its placement on the lot, or other dimensional requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, provided that:

- A. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
- B. Should such nonconforming structure be destroyed by any means to an extent of more than 50 percent of its replacement cost at the time of destruction, it may be re constructed or replaced within six (6) months of the date of destruction. After six (6) months from the date of destruction, any structures placed or constructed on the property must conform to the provisions of this ordinance.
- C. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

SECTION 2304 – REGULATIONS CONCERNING NONCONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY)

Where at the time of passage of this Ordinance, lawful use of land exists which would not be permitted by the regulations imposed by this Ordinance, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

- A. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance;
- B. No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this ordinance;
- C. If any such nonconforming use of land ceases for any reason for a period of more than 30 days (except where government action has impeded access to the premises), any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located;
- D. No additional structure not conforming to the requirements of this Ordinance shall be erected in connection with such nonconforming use of land.

SECTION 2305 – REGULATIONS CONCERNING NONCONFORMING USES OF MAJOR STRUCTURES OR OF MAJOR STRUCTURES AND LAND IN COMBINATION

If lawful use involving individual major structures (i.e., those with a replacement cost of \$1,000 or more) or of such major structures and land in combination, exists prior to the effective date of adoption or amendment of this Ordinance, that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
- B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.
- C. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.
- D. When a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for six consecutive months or for six months during any three year period (except when government action has impeded access to the premises), the structure, or structure and

land in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

- E. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to the extent of more than 50 percent of the replacement cost at the time of destruction.

The Mayor nor any Alderman shall participate in the hearing of the singular item nor vote on any matter before the Mayor and Board in which he has a personal financial interest.

SECTION 2504 – DIMENSIONAL VARIANCES

Where the strict application of this Ordinance would result in peculiar and exceptional practical difficulties to or exceptional hardship upon the owner of such property, the Planning/Zoning Commission shall conduct a public hearing on applications for dimensional variances, and is empowered to grant approval of such dimensional variances from the strict application so as to relieve such difficulties or hardships. Examples of such difficulties or hardships include exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the original adoption of this Ordinance; or by reason of the location of trees, natural drainage course, lakes, or other desirable or attractive features, which condition is not generally prevalent in the neighborhood.

2504.01 Requirements for Granting Variances: Any person desiring a dimensional variance from the terms of this Ordinance shall submit a written application (on a form furnished by the Zoning Administrator) demonstrating compliance with ALL of the following; a variance shall not be granted unless the applicant demonstrates:

- A. That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings, in the same district.
- B. That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.

- C. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, structures, or buildings in the same zoning district.

2504.02 Existence of Non-Conforming Uses Not Grounds for Variance: The existence of non-conforming uses of neighboring lands, structures, or buildings in the same zoning district shall not be considered grounds for granting a variance. Furthermore, the existence of permitted or non-conforming use of lands, structures, or buildings in other districts shall not be considered grounds for issuance of a variance.

2504.03 When a Site Plan Shall Be Required: If the Zoning Administrator feels that more information is needed than is included on the plot diagram submitted with an application for a building permit, then a site plan shall be submitted with an application for a dimensional variance.

2504.04 Public Hearing Required: A public hearing shall be held in accordance with Section 2511 of this Ordinance for all proposed dimensional variances.

2504.05 Required Findings: No variance shall be issued until the Planning/Zoning Commission has made a finding that the reasons set forth in the application justify the granting of the variance, and that the variance constitutes the minimum allowable deviation from the dimensional regulations of this Ordinance in order to make possible the responsible use of the land, building or structures. Furthermore, no variance shall be granted until the Planning/Zoning Commission has made a finding that the granting of the dimensional variance will be in harmony with the general purpose and intent of this Ordinance, and that the variance will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

2504.06 Conditions and Safeguards May Be Prescribed with Dimensional Variance: In granting any dimensional variance, the Planning/Zoning Commission may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 2514 of this Ordinance.

If such conditions and safeguards are imposed by the Planning/Zoning Commission in granting a variance, the applicant shall be required to sign an agreement whereby he/she accepts those conditions and safeguards (which shall be specified in the agreement). This instrument shall be in a form recordable in public land records.

2504.07 Granting of a "Use Variance" Prohibited: Under no circumstances shall the Planning/Zoning Commission issue a variance for to allow a use not permissible under the terms of this Ordinance in the District involved, or any use expressly or by implication prohibited by the terms of this Ordinance in said district.

SECTION 2505 – CONDITIONAL USES (SPECIAL EXCEPTIONS)

The Planning/Zoning Commission is empowered to hear and decide whether or not proposed conditional uses (special exception) authorized under this Ordinance should be granted.

2505.01 Requirements for Granting a Conditional Use Permit: Any person desiring a conditional use permit (special exception) shall submit a written application (on a form furnished by the Zoning Administrator) indicating the Section in the Ordinance under which the conditional use is sought and stating the grounds on which it is requested. The Planning/Zoning Commission shall not grant a conditional use unless satisfactory provision and arrangement has been made concerning all of the following:

- A. Ingress and egress to property and proposed structures thereon with particular reference to vehicular and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe.
- B. Off street parking and loading areas.
- C. Refuse and service areas.
- D. Utilities, with reference to locations, availability, and compatibility.
- E. Screening and buffering with reference to type, dimensions, and character.

2505.03 Public Hearing Required: A public hearing shall be held in accordance with Section 2511 of this Ordinance for all proposed conditional use permits (special exceptions).

SECTION 2506 – AMENDMENTS TO THE ZONING ORDINANCE TEXT OR THE OFFICIAL ZONING MAP (REZONING)

2506.01 Type of Amendments/Application Required: Amendments to this Ordinance include: (1) amendments to the text; and (2) amendments to the Official Zoning Map, which is legally a part of this Ordinance. Any person may initiate an amendment to this Ordinance by filing an application with the Zoning Administrator (on a form furnished by him/her).

2506.02 Site Plan Required: If a specific use is identified by the applicant for a rezoning (i. e., a proposed amendment to the Official Zoning Map), then the application for rezoning shall be accompanied by a site plan prepared in accordance with Sections 2508 and 2509 of this Ordinance.

2506.03 Criteria for Rezoning: No amendment to the Official Zoning Map shall be approved unless the proposed rezoning meets one of the following criteria:

- A. That there was a mistake in the original zoning. “Mistake” in this context shall refer to a clerical or administrative error, such as a mistake of draftsmanship on the Official Zoning Map or incorrectly reflecting the Planning/Zoning Commission’s decision in the minutes. “Mistake” does not mean that the Planning/Zoning Commission made a mistake in judgment in their prior zoning, such as not realizing the full import of the zoning classification or mistakenly placing the property in one classification when the evidence indicated that another would have been more appropriate.
- B. That the character of the neighborhood has changed to such an extent as to justify reclassification, and that there is a public need for the rezoning.

When a property owner or another person requests rezoning (as allowed in the Zoning Ordinance) that affects multiple properties in an area, at least $\frac{2}{3}$ of affected property owners must join the request for rezoning before a hearing to consider the request can be scheduled.

2506.04 Proposed Rezoning Shall Be Consistent with Adopted Comprehensive Plan: Section 17-1-9 of the MISSISSIPPI CODE OF 1972, As Amended, requires that “zoning regulations shall be made in accordance with a comprehensive plan.” Accordingly, no amendment to the Official Zoning Map shall be approved by the Planning/Zoning Commission unless the proposed rezoning is consistent with all four elements of the adopted Comprehensive Plan of the City of Magee, including the Goals and Objectives, the Land Use Plan, the Transportation Plan, and the Community Facilities Plan.

2506.05 Public Hearing Required: In accordance with Section 17-1-17 of the MISSISSIPPI CODE OF 1972, As Amended, a public hearing shall be held on any proposed amendment to the text of this Ordinance or the Official Zoning Map following at least fifteen days notice of the hearing in “an official paper or a paper of general circulation in such municipality specifying a time and place of said hearing.” The hearing shall be held in accordance with Section 2511 of this Ordinance.

2506.06 Identification of Adjacent Property Owners: The applicant for the rezoning shall furnish to the Zoning Administrator, with the completed application, the names and addresses of all persons owning land 300 feet from the subject property (excluding the rights of way of streets or highways).

2506.07 Public Hearing Before Mayor and Board of Aldermen Unnecessary Unless Requested by Aggrieved Party: Following a public hearing held before the Planning/Zoning Commission on a proposed amendment to this Ordinance (either an amendment to the text or Official Zoning Map), it shall not be necessary to hold another hearing on the proposed amendment; the Mayor and Board of Aldermen may act upon the recommendation of the Planning/Zoning Commission. However, any party aggrieved by the recommendation of the Planning/Zoning Commission shall be entitled to a public hearing before the Mayor and Board of Aldermen, with due notice thereof as provided under Section 2511 of this Ordinance.

2506.08 Two Thirds Vote of Board of Aldermen Necessary to Approve Rezoning Under Certain Circumstances: In case of a protest against a proposed rezoning signed by twenty percent (20%) or more of the property owners, either within the area of the proposed rezoning or those within 300 feet (excluding the rights of way of streets or highways) of the property proposed for rezoning, such amendment shall not become effective except by the favorable vote of two thirds of all members of the Mayor and Board of Aldermen.

2506.09 Res Judicata: Upon the submission of an application for a rezoning, and a determination by the Planning/Zoning Commission that said application should be denied, the Planning/Zoning Commission shall not accept a subsequent application to rezone the same property or any part thereof to the same classification until the expiration of one (1) year from the date of the decision of the Board denying said application. This is known as the doctrine of res judicata. However, if the application relates to the same property but seeks zoning to a different classification, the doctrine does not apply; and the Planning/Zoning Commission may consider such a proposed rezoning.

2506.10 When an Ordinance Amending Text or Official Zoning Map Is Required and Publication of That Ordinance: No amendment to the Official Zoning Map or the text of this Ordinance shall become effective until an Ordinance amending same has been passed by the Mayor and Board of Aldermen. Any ordinance amending the Official Zoning Map shall contain findings of fact citing evidence demonstrating compliance with the criteria specified under Section 2506.03 of this Ordinance. Section 23-13-11 of the **MISSISSIPPI CODE OF 1972**, as amended, requires that “every ordinance passed by the Mayor and Board of Aldermen, shall be published at least one time in some newspaper published in such municipality, or, if there be no such newspaper, then in a newspaper within the county having general circulation in said municipality.”

2506.11 Effective Date of Ordinances Amending the Text of this Zoning Ordinance or Official Zoning Map: In accordance with Section 23-13-11 of the **MISSISSIPPI CODE OF 1972**, As Amended, “No ordinance shall be in force for one month after its passage”. One month is interpreted to mean 30 calendar days.

SECTION 2507 – SITE PLAN REVIEW: PURPOSES AND WHEN REQUIRED

2507.01 Purposes: The purposes of site plan review are: to promote the health, safety and general welfare of the City; to insure that structures are built in accordance with the provisions of this Ordinance and the Standard Building Code; to conserve the value of existing buildings and structures; to prevent excessive uniformity and dissimilarity and inappropriateness or poor quality of design in the exterior appearance of structures; to prohibit unsightly and unsuitable structures that would be out of harmony or incongruent with existing visual features within the district; and to prevent harm and damage to the City which will result from the absence of such review and manifest itself by:

- A. lower property values;
- B. decreased economic growth; or
- C. diminished future opportunities for land use and development.

2507.02 When Site Plan Review Is Required: Site Plan Review shall be required for the following:

- A. All new, expanded, relocated or reconstructed principal (i.e., not accessory) buildings or structures in all zoning districts, other than single family detached dwellings in A-1, RE, R-1, R-2, R-3, or PUD districts. The specific use of such principal buildings does not have to be identified on the site plan. New, expanded, relocated, or reconstructed accessory buildings or structures shall only require site plan review when such review is determined advisable by the Zoning Administrator, except for the Downtown Preservation District, where site plan review shall be required for all accessory buildings or structures.
- B. If the Zoning Administrator determines that more information is needed than is included on the plot diagram submitted with an application for a building permit, then a site plan shall be submitted with an application for a dimensional variance.
- C. All applications for conditional uses.
- D. All public/quasi-public utilities and facilities. In accordance with Section 402, such public/quasi-public utilities and facilities shall be allowed only as conditional uses in any district.
- E. If a specific use is identified by the applicant for a rezoning (i.e., a proposed amendment to the Official Zoning Map), then the application shall be accompanied by a site plan.
- F. All proposed floodway modifications (to prevent “channelization” without regard to appearance).

- G. All proposed off site parking (i.e., off street parking proposed on a lot other than the one to which the parking is appurtenant) in any district.
- H. Any proposed medical cannabis establishment.

SECTION 2508 – SITE PLAN REVIEW PROCEDURES

The Zoning Administrator shall act as the coordinator for the site plan review process. He shall advise all applicants for building permits if the proposed use requires the preparation and submission of a site plan and the official approval of that plan prior to the issuance of the permit. All applicants shall follow the procedures specified below:

2508.01 Sketch Plan: Prior to filing of an application for approval of a site plan, the applicant should meet and consult informally with the Zoning Administrator. This meeting will give the applicant an opportunity to secure guidance as to what will probably be required before incurring great expense in making a detailed site plan.

2508.02 Submission of Site Plan: Five (5) copies of each site plan shall be prepared and submitted to the Zoning Administrator, who shall retain two copies and distribute the other three as follows:

- A. one copy to the City Engineer
- B. one copy to the Fire Chief
- C. one copy to the Planning/Zoning Commission

Consistent with the submittal requirements for subdivision plats, as specified under Section 2502.02 (C), site plans shall be submitted at least twenty one (21) days prior to the next regular meeting of the Planning/Zoning Commission at which the plan is to be reviewed, or it will not be placed on the Planning/Zoning Commission agenda for that meeting.

The Zoning Administrator shall notify the applicant of any deficiencies or omissions in the site plan. The site plan shall not be processed until all required data is provided as prescribed in Section 2509 of this Ordinance.

2508.03 Applicant Must Be Represented at Planning/Zoning Commission and Mayor/Board of Aldermen Meetings: Applicants (or their designated representative) for site plan approval shall be present at meetings of the Planning/Zoning Commission and Board of Aldermen when their proposed site plan is to be reviewed, or no action will be taken by those bodies.

2508.04 Planning/Zoning Commission Review of Site Plan: Following receipt of the site plan and supporting data as prescribed under Section 2509, the Zoning Administrator shall forward one copy to the Planning/Zoning Commission for review.

The Planning/Zoning Commission shall review the site plan and data at its next regular meeting following submission of same to the Zoning Administrator. The Zoning Administrator (or his designated representative) shall be present at the Planning/Zoning Commission meeting.

The purpose of this review is to ascertain whether or not the applicant's proposed building or structure conforms with this Ordinance and other applicable laws, will maintain harmony and continuity with similar existing uses within the district and considering other like structures within 500 feet of the proposed structure as measured from each lot line of the proposed structure excluding streets, alleys, and other public rights of way.

After reviewing all information relative to the site plan, the Planning/Zoning Commission may recommend approval or disapproval of the site plan or before approval, may request the applicant to modify, alter, adjust or otherwise amend the plan. If the Planning/Zoning Commission determines that the proposed structure or is excessively similar or dissimilar and makes a specific finding that the structure as proposed would provoke one or more of the harmful effects as set forth in 2507.01, and that such finding is not based upon personal preferences as to taste or architectural style or design, then the application for a building permit shall be denied. If the site plan is recommended by the Planning/Zoning Commission for approval, such recommendation for approval shall be contingent upon final review and approval by the Mayor and Board of Aldermen.

In any case, the Planning/Zoning Commission shall make a written statement of its findings (in the form of Minutes) and said statement shall be forwarded to the Zoning Administrator in time for copies of the statement to be available for distribution to the Mayor and Board of Aldermen at the next meeting of that body following the Planning/Zoning Commission meeting.

2508.05 Approval of Site Plan by Mayor and Board of Aldermen: The Zoning Administrator shall forward the recommendation of the Planning/Zoning Commission to the Mayor and Board of Aldermen. The Mayor and Board of Aldermen shall consider whether or not the applicant's proposed building or structure will conform with the provisions of this Ordinance and other applicable laws, and whether or not it will maintain harmony and continuity with similar existing uses within the district and considering other like structures within 500 feet of the proposed structure as measured from each lot line of the proposed structure (excluding streets, alleys, and other public rights of way). If the Mayor and Board of Aldermen determine that such structure would cause or provoke one or more of the harmful effects as set forth in 2507.01, and that such finding is not based upon personal preferences to taste or architectural style or design, then the application for a building permit shall be denied.

If the Mayor and Board of Aldermen approves the site plan, such action by the Mayor and Board of Aldermen shall constitute final approval and authority for the developer to proceed with the proposed development subject to the issuance of a building permit. Following such approval by

the Mayor and Board of Aldermen, the Zoning Administrator shall stamp copies of the site plan “APPROVED”, sign them, and return one copy to the applicant. One copy shall be retained by the Zoning Administrator in his files.

2508.06 Site Plan Becomes Zoning Requirements for Proposed Use: The approved site plan shall become the zoning requirements for the property involved. All construction, except for minor adjustments provided under Section 2508.07 below, shall be consistent with the approved site plan.

2508.07 Minor Adjustments to the Approved Site Plan: After the final site plan has been approved, minor adjustments to the plan which comply with the spirit of the Zoning Ordinance and the intent of the Mayor and Board of Aldermen in approving the site plan may be authorized by the Zoning Administrator as provided under Section 2501.02.

2508.08 As Built Plans: In the case where exact lot lines cannot be drawn until after construction, (e.g., townhouse subdivisions) the builder shall submit “as built plans” of the development following construction.

SECTION 2509 – SPECIFICATIONS FOR ALL REQUIRED SITE PLANS AND ELEVATIONS

The notice to be posted on the property involved shall consist of a sign that is no less than sixteen (16) square feet in size with lettering that is no less than two (2) inches in height. The sign shall have a white background with black lettering.

2511.03 Public Hearings Before the Planning/Zoning Commission: Where public hearings are required by this Ordinance, the Planning/Zoning Commission shall conduct a public hearing at which all interested persons shall be recognized and given an opportunity to speak. At the conclusion of the public hearing, the Commission shall, on its own motion, forward their recommendation to the Mayor and Board of Aldermen. Only a majority vote of a quorum of the members of the Commission shall carry a motion to approve or deny an application for a variance, conditional use permit or amendment to the text of this Ordinance or the Official Zoning Map. Only in case of a tie vote may an application be forwarded to the Mayor and Board of Aldermen "without recommendation".

2511.04 Changes to an Application for Variance, Conditional Use Permit, or Zoning Ordinance Amendment (Including Re Zonings): Any change proposed by an applicant for a variance, conditional use permit, or amendment to this Ordinance (including re zoning applications) at the time of the hearing, except for conditions recommended by the Commission for variances or conditional use permits, shall require a rehearing before the Commission with another public notice.

SECTION 2512 – FEES

2512.01 Schedule of Fees: The Mayor and Board of Aldermen shall establish a schedule of fees for the issuance of building permits, change of use permits, the processing of all site plans required under Section 2507, and the processing of applications for variances, conditional uses and zoning amendments. Said schedule of fees shall be posted in the office of the Public Works Director, Zoning Administrator or other designated city official whose office shall be responsible for their collection.

2512.02 Amendment of Alternation of Fee Schedule: The schedule of fees may be altered or amended only by the Mayor and Board of Aldermen.

2512.03 Payment Required: No action or processing shall be taken on any application until all applicable fees, charges and expenses have been paid in full.

2512.04 Fees Not Refundable: No fees or other monies paid in conjunction with zoning related matters shall be refunded.

SECTION 2513 – APPEALS

2513.01 Appeals from Administrative Interpretation of the Zoning Administrator: In accordance with Section 2501.02 of this Ordinance, any party aggrieved with the administrative interpretation of the Zoning Administrator shall have the right to appeal such interpretation. Such appeals may be made directly to the Planning/Zoning Commission. If the appeal is made to the Planning/Zoning Commission, the party aggrieved shall submit a written request to the City Clerk one week preceding any regularly scheduled meeting of the Planning/Zoning Commission at which the aggrieved party desires to be heard.

All appeals shall be in writing and shall include a copy of the original application for a building permit, change of use permit, dimensional variance, special exception or rezoning, together with a statement of the reason for the appeal.

2513.02 Appeals from Recommendation of the Planning/Zoning Commission: Any party aggrieved with the recommendation of the Commission as adopted at any meeting of the Commission shall be entitled to a public hearing before the Mayor and Board of Aldermen with due notice thereof and after publication for the time and as provided by law. An aggrieved party may be anyone who takes exception with the recommendation made by a majority of a quorum of the Commission.

Such a hearing shall be provided only if aggrieved party files a written request with the City Clerk within fifteen (15) days of the vote of the Commission on the recommendation.

The Board will set a hearing within 30 days of receipt of request.

2513.03 Fee Required for Appeals from Planning/Zoning Commission Recommendations: Any applicant aggrieved with a recommendation from the Planning/Zoning Commission regarding a variance, conditional use permit, or amendment to this Ordinance shall file an appeal fee with the City Clerk, the rate for which shall be set as the same required for publication and public notice as required in the original application.

2513.04 Appeal Hearing by the Mayor and Board of Aldermen: In the event an appeal is made to the Mayor and Board of Aldermen by a party aggrieved by the recommendation of the Planning/Zoning Commission, the Mayor and Board of Aldermen shall order public notice to be given by publication of the appeal and posting of a sign. The appeal shall be heard as a public hearing and as a matter to be placed on the agenda of a regular or adjourned meeting of the Mayor and Board of Aldermen. In no case shall the appeal be heard before proper notice shall be given. At the time of the Appeal Hearing, the Board shall hear the recommendation of the Commission, and then hear from the appealant and then the appellee and other interested parties. The Mayor and Board shall then uphold or reject the appeal, and then accept or reject the recommendation of the Commission upon its own motions. If the appeal or recommendation of the Commission has several parts, the Mayor and Board of Aldermen may uphold the appeal and accept the recommendation of the Commission on some, and deny and reject others. Any change in any part or parts of the petition which the Mayor and Board of Aldermen may deem appropriate or necessary resulting from the appeal (except conditions applying to variances and special exceptions), shall be referred back to the Planning/Zoning Commission for reconsideration, subject to public notice and hearing, as a separate and new petition. The filing fee may be waived at the discretion of the Mayor and Board of Aldermen.

2513.05 Appeals to a Court of Law: An appeal from any action, decision, ruling, judgment or order by the Mayor and Board of Aldermen may be taken by any person or persons to the Circuit Court of Simpson County.
